Tab of guaranteed assessment in Euro per kW

TV TRANSMITTER AGE	VALUATION IN EURO PER KW
5 years	1200 Euro/kW
Between 5 and 10 years	1000 Euro/kW
>10 years	700 Euro/kW

Example

You have a 1000 Wrms power transmitter, 10 years old and with a maximum efficiency of 20%. Its market value is practically null, but if you choose to replace it with a new Screen Future SFT/XE

you will get promptly a 1.000 Euro evaluation on your old used one!

That's not all!

The new transmitter, thanks to scrapping and energy saving (over 50% respect to previous technologies), **pays for itself in about 3 years!**

What can you save with the new SFT/XE series transmitters?

Example: SFT/XE 1000 Wrms DVB-T (DVB-T2) $\eta=42\%$

Electricity consumption price per kW/h: 0,22 Euro (Average price)

TV Transmitter	Consumption per hour	η Efficiency	kW/h per year	Spending on energy consumption per year in Euro
TV PREVIOUS 1000 Wrms	5.000 W/h	20 %	43.800 (5.000x24x365)	9.636= (43.800x0,22)
SERIE SFT/XE 1000 Wrms	2.380 W/h	42 %	20.850 (2.380x24x365)	4.587= (20.850X0,22)

5.049 Euro saving per year

The new transmitter SFT-XE **PAYS FOR ITSELF** in about 3 years!

Regulation

Scrapping promotion and overvaluation of TV transmitters

1. Customers - Duration of the promotion

The promotion is valid all over the world: the customers could join it by filling the "Application form" and only by purchasing any TV transmitter marked Screen Future from 1st June to 31st July 2019.

2. General structure

With this promotion Screen Future will grant the pre-defined value (see table) as a discount, following the activation of the application procedure, in relation to the new Screen Future products purchase, up to a maximum of 10% of the new transmitters ordered value. We accept a maximum of one scrapped device per customer / promotion.

3. How to send the "Application Form"

The registration form, duly completed in all its parts, has to be sent to Screen Future by e-mail to the following address: sales@screen.it

4. Conditions for granting pre-defined value

By adhering to the promotion, the Customer can take advantage of a guaranteed incentive to the purchase of the new Screen Future products (as per Table on page 2 "Evaluation table Euro / kW ") up to a maximum of 10% of the value of the new transmitters ordered value. These values could be applied only if the scrapping/buy back products are still functional and complete with all parts and accessories provided in the original configuration. They must not have any damage. However, Screen Future will decide, at its exclusive and final discretion, whether the old transmitter must be shipped to its headquarters, with transport charged to Screen Future, or to leave them to the customer granting anyway the predefined promotion value. If Screen Future will receive any non-working or damaged transmitters, they will be returned to the customer, charging the shipping costs with regular invoice.

5. Terms and conditions of the evaluation's payment

The guaranteed evaluation will be applied through a discount on the purchase of a new Screen Future transmitter.

6. Liability on data contained in the returned transmitters

Before the delivery of any used transmitter to Screen Future, the Customer is required to delete the data stored in and of belonging to the owner and, by the way:

- The Customer declares to be the owner of the transmitter sent to Screen Future, unless there are no pending issues and to be aware that, following the delivery, he will lose any rights upon the related software licenses.
- The Customer declares that the transmitters are not subject to investigations of Judicial Police.
- The customer, releasing Screen Future now by then from any liability, declares to hold Screen Future harmless from and against any action / claim / request or instance due to non-compliance to the truth of the above customer declarations.
